provisions of chapter 286 of the Acts of Assembly of 1312, which provides for and authorizes the purchase of at least one-half of the block. It was approved March 14, 1912. The act was adopted as a result of a report from a joint committee of the Senate and House submitted on February 28, 1912, to the effect that it was advisable that at least one-half of the block bounded by Capitol. Twelfth, Eleventh and Broad Streets be purchased from the city To Streets be purchased from the city. To carry into effect the purpose of the resolution, the act authorizes the Govresolution, the act authorizes the Gov-ernor. Lieutenant-Governor and Attor-ncy-General to purchase, if possible, the half of the block lying next to Capitol Street, but if found impossible, to buy the half nearest Twelfth Street, The act appropriated \$90,000, or as much of it as was necessary, and di-rected that the property when her much of it as was necessary, and directed that the property, when purchased, should be held "for the purpose of erecting a modern fireproof State Library building, in which shall be provided also rooms for the Supreme Court of Appeals and its library, and for the further purpose of erecting such other buildings as may be required for the accommodation of other departments and agencies of the State."

Depended on Surplus.

In case a purchase is made, the act suthorizes the Governor to make such repairs to the buildings on the property as may be necessary to fit them for use by any of the departments of the State in the State in the State until new buildings can be erected. The meat of the resolution is

"No action shall be taken in regard to this purchase save at the end of the fiscal year of 1912 or 1912, nor unless a real surplus exists in the treasury sufficient to make purchase of said property in one of the fiscal years."

The State's fiscal year for 1912 closed with exactly \$400.52 in the treasury, and purchase at that time was not prochase. and purchase at that time was not practicable under terms of the act. But in September 30, State Auditor Moore reported that the fiscal year had closed with an approximate bal-ance of \$250,000.

Leaders of Catholic Party Claim Long Lead, and Expect to Have Majority in Chamber and Senate - Choice of Congress Assured-No Semblance of Disorder.

Mexico City, October 26 .- At the close of the elections to-day, the indications were that not sufficient votes had been cast in Mexico to constitute a legal choice for the presidency to succeed General Victoriano Huerta.

No official announcement was made to-night, but it was unofficially estimated, judging from the results in the vote would be up to the average, that less than 10,000 of the 80,000 eligible voters in the Federal district went to the polls. There are said to be more than 3,000,000 eligible voters in the republic.
The leaders of the Catholic party

claimed a long lead, although they were unable to estimate the number of votes polled for their candidates, Federico Cambon and General Rascon.
If this claim is correct, it is generalengines a ly thought that General Fellx Diaz and turning out Senor Requina ran second. . President Huerta did not vote. He

spent the day at his suburban home.
A decree will be issued by General Huerta increasing the army from 85. 000 men, its sileged present number, to 150,000. General Huerta proposed such on increase some time ago, but the Congress which he dissolved limited him to 80,000.
Since the Deputies and Senators are

not subject to the election provisions, governing the presidential elections, it is said to-night that the choice of a Congress is assured. It is assumed, on the showing so far as known, that the Catholic party will have a majority in both Chamber and Senate.

No Semblance of Disorder.

Mexico City, October 26.—The elections promised by Provisional President General Huerta were held to-day, and there was no semblance of disorder in any quarter of the city. A few patrols were on the streets, but neither police nor troops had any but their usual duties to perform.
